Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user

PROJECTS

Personal Project

Integrated Information System Project

Analyzed, designed, and implemented a custom information system

Improved operational processes using BPM

Developed databases (DBMS) and advanced web interfaces

Built a complementary desktop application using .NET Framework with WPF

Demonstrated ability to integrate complex technologies for end-to-end solutions

Professional Website Development

Designed and developed 3 responsive websites using HTML, CSS, and JavaScript

Implemented interactive features to enhance user engagement

Highlighted skills in front-end development and UI/UX design

Python Game Applications

Developed interactive games including Tic Tac Toe and Ping Pong

Created engaging game interfaces

Applied programming logic to real-world applications

Personal Portfolio Website

Built an online portfolio using HTML and CSS

Features intuitive navigation and visually appealing design

Showcases technical skills and project highlights

Spring Boot & Angular Applications

Developed robust, scalable web applications

Integrated Spring Boot (backend) with Angular (responsive frontend)

Delivered complete, high-performance solutions

Activities & Certifications

Participated in cybersecurity workshops

Completed academic projects in information systems

Earned certifications in web development

Strengthened technical skills and versatility
